## Summary

Full-stack Software Engineer with experience in developing scalable web and cloud applications using C#, .NET, Python, React, and Azure. Proven track record in building secure, high-performance systems. Actively seeking Software Development Engineer roles to apply technical expertise and problem-solving skills in building impactful products.

## Experience

### Software Engineer

June 2024 – May 2025

CDK Global

Chicago, IL

- Led refactoring of 15+ legacy NuGet dependencies and developed async C# event-driven features, restoring 5 critical CRM systems during CDK's cyberattack recovery with 100% test coverage and zero production incidents.
- Created Python automation scripts utilizing pandas and asyncio that reduced data validation and log processing time by 40%, significantly improving debugging efficiency and real-time monitoring of CRM system health.
- Built a reusable React-based redirect warning dialog with CDK's internal UI/UX library to improve external link safety in the CRM email client, enhancing user security and reducing phishing incidents by 25%.

### Graduate Student Assistant (CPS Testing Examiner)

Jan 2024 – May 2025

Chicago Public Schools (CPS)

Chicago, IL

- Streamlined digital record management by ensuring 100% accuracy in updating test statuses for 50+ students within a large-scale online platform, applying validation checks comparable to software testing and debugging.
- Designed and implemented a structured inventory tracking system with weekly validation logic while overseeing exam sessions for 50+ students, ensuring smooth operations and process reliability.

### Cloud Engineer | Graduate Engineer Trainee

June 2021 – July 2023

LTIMindtree(Chevron)

Bangalore, IN

- Developed and deployed 20+ web applications for Client Chevron using Azure PaaS Services, Docker, Kubernetes, and Python while maintaining application servers, databases, and other resources.
- Investigated vendor-reported issues and designed an ASP.NET application to automate weekly data loads, increasing team performance by 40% and saving 40+ hours of manual work.
- Led a team of 5 to develop an ASP.NET and Angular web application with CRUD operations and REST APIs for an in-house bus reservation system, improving ticketing efficiency and customer satisfaction by 20%.

### Software Engineer Intern

June 2019 – July 2019

DailyNinja

Bangalore, IN

- Engineered a scalable data pipeline in Python with modular components for acquisition, transformation, and validation of large datasets, improving system accuracy and reliability by 35%.

## Projects

### F1 Live Hub – Driver & Race Tracker | Flutter, REST API, Dart, Android Studio

January 2025

- Built a fully responsive F1-themed mobile app showing live driver & constructor standings, race calendar, and favorite drivers using the Ergast API and shared preferences for persistent state.
- Implemented a red-black UI theme with card-based layouts for clear data visualization and intuitive navigation, inspired by the official F1 aesthetic.

### Flask Based Web App on Diabetes Prediction | Python, Flask, Heroku

December 2021

- Developed a comparative study of classification algorithm models on the Diabetes Dataset to predict if the user has diabetes and deployed a Flask-based web app on Heroku. Random forests achieved 81.168% accuracy and published in Springer.

## Technical Skills

**Programming Languages:** C#, C/C++, Java, Python, SQL, Dart, JavaScript, TypeScript, HTML, CSS

**Frameworks & Databases:** ASP.NET MVC, ASP.NET Core Web API, Angular, React, React Native, Node.js, Express.js, Flutter, Entity Framework Core, Flask, Microsoft SQL Server, MySQL, PostgreSQL, MongoDB, Firebase, SQLite

**Cloud & Architecture:** Microsoft Azure (PaaS/IaaS, App Services, Functions, DevOps), Amazon Web Services (EC2, S3, Lambda, CloudFront, RDS), Google Cloud Platform (Compute Engine, Cloud Run, Firebase), Docker, Kubernetes, Terraform, CI/CD Pipelines, RESTful APIs, Microservices Architecture

**AI/ML & Data:** TensorFlow, Scikit-learn, OpenAI API, Data Preprocessing, Model Evaluation, Data Visualization

**Certifications:** Microsoft Certified: Azure DevOps Engineer Expert, Azure Developer Associate, Azure Data Engineer Associate, AWS Cloud Technical Essentials, Architecting Solutions on AWS

## Education

### Illinois Institute of Technology

Aug 2023 – May 2025

Master of Science in Computer Science

Chicago, IL

### Dayanand Sagar University

Jun 2017 – Jun 2021

Bachelor of Technology in Electronics and Communication

Bangalore, India
